හැමෝම reviews එවන්න. මට ඒව ගොඩක් වටිනවා

සෑම කෙනෙකුටම පාහේ ගුරුවරයෙක්, වෛද්‍යවරයෙක්,
ඉංජිනේරුවරයෙක් වැනි රැකියා කරන පුද්ගලයෙකු විය හැකියි. නමුත්
සත්පුරුෂ, කලණ මිතුරු ශ්‍රේෂ්ඨ ගුරුවරයෙක්, වෛද්‍යවරයෙක්,
ඉංජිනේරුවරයෙක් විය නොහැක. මාගේ ජීවිතයේ හමු වූ සත්පුරුෂ,
කලණ මිතුරු ගුරුවරයෙක් වෙයි ඔබ. "ළමයිනේ තේරුණාද...?"
යනුවෙන්ද නිතර අසමින් මනා ලෙස ඔබ අපට සියලු දේ ගුරු මුණ්ටියක්
නොමැතිව ලබා දුන්නා. යමෙකුට නොතේරුනා නම් බොහොම
කරුණාවෙන් එය නැවත කියා දුන්නා.... ඔබ දක්ෂ ගුරුවරයෙකි....
නිදසුන් වේවා.....!
නිරෝගි වේවා....!
සුවපත් වේවා..!
දිසාල වේවා...!

හැමෝම reviews එවන්න. මට ඒව ගොඩක් වටිනවා

මම මේ Course එක පටන් ගන්නකොට හිතාන් හිටියට වඩා දේවල් සර්
ඉගැන්වුවා. විශේෂයෙන් gui එකක් හදන එක එහෙම. මම කලින්
python වලින් පොඩි පොඩි programme run කරලා තිබ්බට ඒ programme
export කරලා desktop application විදිහට කවදාවත් run කරලා තිබ්බේ
නෑ, gui එක design කරලා ඒක අපිට ඕන විදිහට code කරන වගේම
අපේ programme එක desktop application එකක් විදිහට export කරන්න,
එකේ step එකක් හදන්න ඕන ගොඩක් දේවල් සර් කියලා දුන්නා. ඒ
නිසා මගේ මුල්ම desktop application එක වුන sparemart එක මට
හදන්න පුළුවන් වුනා. මට විශ්වාසයි මේ course එක follow කරන
කෙනෙක්ට තමන්ගේ උත්සහය වගේම මහත්සිය තිබ්බොත් හොඳ
desktop application හදන්න පුළුවන් වෙනවා කියලා.

~Dilan Hiroshana

+94 77 477 2853

I am Dilan Hiroshana, not doing IT related job, and working as Quality Assurance Manger in leading manufacturing plant. But I was trying to learn Python by myself to cater to my expectation, then try to get help from ChatGPT , but all not fulfill my requirement, then I got to know about this course and it covers vast area witch I want to know at reasonable price. I was really happy about the journey so far, level of standard maintains to match higher education pattern. During these classes we learn what are the capabilities of python. My suggestion is to add descriptive short videos about some more examples with deferent libraries, method , which we not discussed descriptively I the class and share notes and sample codes before the class. Because these are new to us and sometimes feel fast. Thank you again for the greater service you were provided and providing in future.

7:06 PM

Type a message

Ok sir

8:07 PM

When I started this course.I didn't have much knowledge of python, especially when it came to developing GUI applications using Python and Tkinter. I joined this course to learn more and improve my python skills.
During this course,I learned how to create GUI desktop applications using Tkinter. and how to connect the application to a database.
As part of the course, I also developed an Employee Management System using python and Tkinter which helped me apply everything I learned.
Sir explained us everything in a very simple way so it was easy to understand.The practical examples and coding exercises helped me a lot in learning.
I would definitely recommend this course to anyone who wants to learn Python and develop GUI applications even if they are beginners.
Thank you so much sir 🙏😊

8:40 PM

~Upul Gunaratne

+94 77 763 4674

I am Upul Gunaratne, served SriLankan IT. I was first attached to electronic equipment maintenance and later I was maintaining Airport departure control system and other related computer networks.
I was new to Python programming when I came across SLIDP Academy Ad on fb. As a matured student, I had a somewhat lazy start. Thanks to your support and encouragement, I could complete the course. I could also recall my old SQL knowledge (BIT Stream) and able to be updated with current software trends. Even though you're a very responsive teacher, availability of course recordings for life time is a great help, so that I can go through again and sortout any issue mostly by myself.
I was to stop with current course but now feel I should continue with your next course. Thank you 🌸

මේ Python පාඨමාලාව ඇත්තටම ඉතාමත් සරලව සහ පැහැදිලිව programming ඉගෙන ගන්න උදව්වක් වෙනවා. මුල සිටම Python ගැන හොඳින් විස්තර කරලා, සරල උදාහරණ සහ ප්‍රායෝගික coding අභ්‍යාස වලටත් වටිනා කාලයක් දීලා තියනවා. Data Structures, OOP, Libraries වගේ වැදගත් concepts කලාතුරකින් ආවරණය කරලා, project-based learning විදිහට ඉගෙන ගන්න හැකියාව ද තියනවා. Python programming වලට අලුතින් ආපු කෙනෙක්ට හෝ දැනුම වැඩිදියුණු කරන්න බලපොරොත්තුවෙන් ඉන්න කෙනෙක්ට මෙය සැහෙන ප්‍රයෝජනවත් වේවි. ඉතාමත් engaging උනත්, අමාරු concepts පවා සරලව explain කරලා තියන නිසා, Python ඉගෙන ගන්න කැමති කවුරුත් මේ පාඨමාලාව try කරලා බලන්න!

Im a software engineer working as a full stack developer with javascript frameworks. I had a big need in learning python to move forward in my career as python is very essential for a software developer. As per my need i gained a vast knowledge from beginning to advance by following this course. The projects we did were extra ordinary. And the lecturer was also very helpful. Thanks for this opportunity and i highly appreciate this course. Thank you.

I'm an associate Architecture at a telecommunication company, and I was wondering about SLIPD Academy and its training programs. I truly believe that enrolling in this class will provide many advantages for my future. Thanks, SLIPD!

3:19 PM

~Shiraj

+94 75 091 5227

Python and Flutter is the future. I have never seen such a lecturer so talented on practical as most are theory and lot of time consumed to getting into real life solutions to make money. This is one lecturer who demonstrated beyond the belief of students. I am exited to join his next lectures.

6:05 PM

~Pinidi Godakanda

+94 77 123 0031

SLIPD Academy's Advanced Python Programming course was a great learning experience, especially as an after A/L student aiming for a career in cybersecurity. The course covered advanced concepts in a clear and structured way, with hands-on exercises that made learning practical and engaging. It gave me a strong foundation in Python, which will be incredibly useful in my future studies and career. Highly recommended for anyone looking to deepen their programming skills!

6:41 PM

~Deegayu Weerakoon 😊

+94 77 577 9916

I am a Trainee Production Executive at a pharmaceutical company. I had no experience of this kind of programming language before. So all kind of stuffs were new to me. However with the guidance of the lecturer I was able to catch up from the beginning.

Providing recordings gave me a big help to stay on track as I am not familiar with these stuffs. Also as I work in shift basis, most of the time I missed live classes. Thanks to recordings, I was able to study the missed parts.

Thank you for your hardwork and commitment.

11:42 PM

🗑️ This message was deleted. 6:40 PM

As a senior lecturer, I always seek opportunities to enhance my knowledge in emerging technologies. SLIDP Academy offers well-structured and practical training programs that bridge the gap between theory and real-world applications. The sessions are engaging, and the instructor demonstrate expertise in delivering complex concepts in an easy-to-understand manner. I truly appreciate the effort put into these courses, and I look forward to joining more sessions in the future. Thank you, SLIDP Academy!

~ **Chathura Adhikari**

+94 71 667 8066

I recently finished the Python course at SLIPD with Mr. Maneesha, and it was a really great experience. He explained everything in a clear and simple way, even the more advanced parts. The course was very practical, and I got to apply what I learned by building my own Forex Arbitrage Trading System as the final project.

The support and guidance I received throughout the course helped me understand how to use Python in real-world scenarios, especially in finance and trading. I'd definitely recommend this course to anyone who wants to learn Python in a hands-on and meaningful way.

22:59

~ Hasi

+94 77 522 2775

Thank you for the class Mr. Maneesha. Overall, it was a very good learning experience. Mr. Maneesha was always available to answer questions and provide help whenever needed. The syllabus was comprehensive, starting from the basics of syntax to building desktop applications with Python and even deploying them. There is really nothing to complain about. This is one of the best classes I have ever attended. The recorded sessions allowed me to revisit and better understand any parts I initially found confusing.

Although I had a background in programming, I started this course with zero knowledge of Python. Now, I feel confident using Python and can build many things with it, which is a big achievement for me.

I highly recommend this class to anyone with basic programming knowledge who wants to begin learning Python. Wishing you all the best, Mr. Maneesha. You are truly one of the best instructors.

23:34

~ **Dasindu Dilvan**

+94 72 229 9694

I'm Dasindu Dilvan and I work as an IT Supporter, Thank you so much for clearly explaining everything from the basics to the advanced parts of Python. I really appreciate the knowledge you provided—now I feel confident that I can create any GUI software and build an executable (EXE) using Python to meet any requirement !

00:21

~ **Hashan Thilanka**

+94 77 166 5394

I just wanted to take a moment to express my heartfelt thanks for your dedication and guidance throughout our Python programming course. Your ability to simplify complex concepts and make coding both understandable and enjoyable has had a lasting impact on my learning journey. Thank you for being such an inspiring and supportive teacher!

09:32

The Advance Python Course conducted by SLPDA covers topics within broader area through which participants can enhance their coding skills and gain insight into the modern software development. I am a professional with some coding experience on engineering activities. The course was very beneficial to me refresh and understand many new aspects of modern coding within a short period. Mr. Maneesha Rajapaksha is doing a great job by clearly elaborating the important aspects with relevant course material. I Highly recommend the course for all those who are enthusiastic to learn and explore Python.

8:53 PM

~V-I

+94 71 899 6582

Although I have completed many Python courses so far, I can confidently say that this has been the best one. I am truly grateful to you for offering such a well-structured and engaging course. It has been a wonderful experience to follow your lessons.

According to my personal opinion it will be very useful if you can guide students to do another project apart from doing the forex bot one, because i think from doing such a unique project which is not familiar to common people will need students to learn those additional theories at to some extend.

Thank you once again for strengthening my Python programming skills through this course. I am very much looking forward to taking your Machine Learning course as well.

1:41 AM

Thank you, Sir, for guiding us through the Python programming course. Your teaching style made the lessons easy to follow and very engaging. The course itself was well-structured and covered important topics like variables, loops, functions, and conditionals in a way that was simple to understand, even for beginners.

Thank you SLIPD Academy for an enjoyable and insightful journey into Python programming. As a biomedical student, this course was a perfect stepping stone into the world of tech. It gave me the foundational skills I need to explore Python-based applications in healthcare and research. I highly recommend SLIPD to any beginner looking to build a strong and practical coding foundation
